

Product Specifications.

ITEM 6.0

Trousse/Malette individuelle (Decontamination Kit Carrying Case):

Inner size : 335*250*122 mm

Outer size : 340*275*124 mm

Material : PP.(Polypropylene)

IP Class : 65

Strong, high impact safety protecting cases are the ideal protection cases for expensive equipment, widely used in different field, like outdoor photography, field investigation, scientific exploration, police, army, expedition, etc. Using impact engineering Polipropilen PP with injection molding is unbreakable and durable.
Temperature -30 to 90 degree.

ITEM 6.1

GANT POWDREUR DE DÉCONTAMINATION CHIMIQUE ET RADIOACTIF

DECONTAMINATION GLOVE :

The power and capabilities of Treatment Against Chemical Threats) in the form of the Individual

Equipment Decontamination Mitt.

The Individual Decontamination Glove contains powder in a polyethylene-backed pad. The Mitt

slides over the user's glove, allowing them to quickly apply powder to surfaces for chemical adsorption and decontamination. Can be safely applied to liquid contamination, enabling users,

soldiers and emergency responders to decontaminate equipment and other surfaces when faced

with a wide range of known or unknown chemical hazards. Is a fast and effective way to safely

neutralize toxic releases, effectively reducing life safety, equipment and cost.

Mitt Specification :

- * Lightweight.

- * Individually packaged.

- * Ready to use.

- * Small form factor - sized for portability.

- * Surface decontamination can reach up to 1 square meter.

- * 10 grams per square meter soil level based on surface cleaning capacity.

ITEM 6.2

FLACON DE 150 ML DE POUDRE DE TERRE DE FOULON (Decontamination Powder).

FLACON essential part of military equipment that have been tried, trusted and used for over 20 years.

The decontamination kits can be used for any CBRN incident.

They provide personal protection from chemical and bodily fluid contaminants.

The bottle contain modified Fullers Earth; a naturally occurring sedimentary clay composed mainly of alumina, silica, iron oxides, lime, magnesia and water, in variable proportions.

The decontamination process involved is the physical absorption of the agent from surfaces, skin, clothing and footwear etc.

We balances and packages the components to create an absorbant decontaminating material for personal in field application and decontamination.

- Highly efficient chemical absorbency.
- Made from 100% Natural Fullers Earth.
- Essential component of any CBRN kit.
- Ease of application by hand.
- Rapid action.
- Stability in long term storage.

Personal Pack.

Bottle Contains: 150 ml of Fullers Earth in an easy to use pack.

MSDS document is provided with the product.

NSN :6505-27-014-1446

ITEM 6.3

ABAISSSES-LANGUE STÉRILES EN EMBALLAGE INDIVIDUEL (Sterile Wooden).

Tongue Depressor :

Product Features :

- Made from special wood.
- It is a cleaned and sanded tongue depressor.
- There are 100 pieces in the or in individual sterile packages.
- It is 18 mm wide and 150 mm long.

ITEM 6.4

FLACON DE SOLUTION LAVANTE DÉSINFECTANTE

Contains, Chlorhexidine and Ethanol.

Disinfectant hand washing solution.

Hypoallergenic solution.

Disinfectant washing solution is a biocidal product containing two active substances, chlorhexidine digluconate and ethanol. It is intended in particular for hygienic and surgical hand washing.

CAS no.: 18472-51-0 Chlorhexidine Digluconate 4%

CAS no.: 64-17-5. Ethanol 5% and Lavante.

SERVIETTE DE DÉCONTAMINATION RADIOLOGIQUE

MATERIAL	: 100% RAYON
WIPE DIMENSIONS	: 25.4X30.5 CM
INDIVIDUALLY PACKAGED	: CASES OF 300
PACKET SIZE	: 10 X 12.7 CM
USAGE TEMPERATURE	: 0°C / +70°C
SHELF LIFE 5 YEARS	: (UN-OPENED)
EAR99	

The Decontamination Wipes are an innovative solution for the decontamination of chemical and radiological substances.

These wipes offer a convenient and effective way to remove trace contaminants on skin and various surfaces, providing a safer environment for personnel.

Description :

The Chemical Decontamination Wipes can be directly applied to hard surfaces for trace chemical adsorption, neutralization and removal.

Combat Wipes for Chemical Surface Neutralization

For best results, wipe the surface in a circular motion allowing the chemical wipes to come in contact

with the trace contamination. Can be used in combination with decontamination mitts, they begin to

work to neutralize against HD and VX immediately.

Chemical removal wipes help fight a variety of chemical pollution and sources of odor that may be on

your surface. Each wipe is 10" x 12" and made of 100% rayon and packaged individually for convenience. Our chemical absorbent wipes contain a proprietary formula of high-performance materials that are effective at adsorbing a wide range of pollutants. Decon wipes for firefighters are great for use on gear or equipment that may have been exposed to chemical agents.

Ingredients: Water, Magnesium Oxide, Titanium Dioxide, Zinc Oxide, Ethoxylated Alcohols

ITEM 6.9

BROSSE CHIRURGICALE AUTOCLAVABLE

(Autoclavable Sterile Nail Brush):

It is used for cleaning nail sand surgical instruments.

- It is autoclavable and suitable for reuse.
- Cleans nails from dirt .
- High Quality Sturdy Material: Non disposable scrub brushes are made of plastic material, which is high temperature disinfection, after using, it can be sterilized under high temperature and pressure of 121 degree with out deformation, durable and long lasting. These nail brushes for cleaning are used for hand washing and surgical hand scrubbing. Finger nail brush is specially designed to provide thorough scrub with out scratching.
- Effective Cleaning: This nail brush has several rows of stiffnylon bristle which offer flexibility to go beneath the nail and strength to provide effective cleaning..And features good elasticity with softtactility, whichwill not shedeasily, can help removedirt from your skin and under nails, scrub a way food, stains ,dirt from most surfaces.
- Convenient Design: It is made of non-absorbent materials and ergonomic design handle, which is so easy to use and grip .Convenient and comfortable for you to removedirt from your hand sand nails. This nail brush for cleaning finger nails can double the cleaning effect.
- Wide applications: Hand brush for nail sofferes an ideal solution when you need to remove stains from the skin or nails. Surgical scrub brushes for hands are perfect for medical workers, clinicians, surgeons, doctors. And it also suitable for home, office, kitchen, bathroom, hospital, travel and so on, convenient and comfortable for you to remove dirt from your hands and nails. It is more safe for your hands to use a good nail brush rather than selecting an aggressive hand soap.

ITEM 6.10**BOITE DE 10 LINGETTES SÈCHES 10*10 CM****10X10 STERILE GAS COMPRESS BANDAGE**

Gas Compress, which comes sterilized in a closed package, is a very practical and hygienic product

for wound care.

Made of 100% cotton.

It is used for first aid by applying a tampon or cleaning to the wound to prevent the wound from

getting infected and to stop bleeding.

It is used to clean the wounds and buffer the blood on the tissue after the operation.

Most commonly used sizes:

5x5 / 7.5x7.5 / 10x10.

ITEM 6.11

SERVIETTES NON TISSÉES

(Disposable Spun-Lace Towel)

Dimension : 100 mm X 400 mm.

Colour : White.

Structure : HDPE TG pad consists of an adhesively bonded two-layer structure as follows ;

Top layer : Adhesively bonded hygiene approved white HDPE Absorbent layer:

Proprietary

blend of absorbent and bonding fibres Absorbency : The absorbency maximum 1500 is 1600 cc/m²

Minimum absorbency tolerance is 10% below the nominal Nominal absorbency per pad = 128.0cm³

ITEM 6.12

PAIRES DE GANTS VINYLES POUR LE RANGEMENT APRÈS NETTOYAGE

- Non-sterile and powder-free.
- Made of synthetic vinyl material.
- Does not contain latex.
- Ideal for people with latex allergies.
- Disposable.
- Compatible with both hands.
- Odorless thanks to its special Formula.
- Colorless and transparent.
- Soft and extra elastic.
- Curved cuff tip prevents the glove from slipping and allows long-term use.
- Can be used easily in jobs requiring sensitivity and protection.

MDR(EU)2017/745 Class I
Compliant to EN455

ITEM 6.13

MASQUES À FILTRE DE PARTICULES, JETABLES, À UTILISER LORS DU C-267V FFP2 NR D With Exhalation Valve :

Respiratory protective mask effective against fine dust, oil and water-based particles

Product Features :

High filtration, low resistance with ☐ Meltblown filter layer produced with Hydro-Chargin Technology

- ☐ Special exhalation valve designed for fast airflow
- ☐ Design suitable for helmet use
- ☐ Economic solution in safe protection, competitive price
- ☐ Internally assembled nose clip for effective sealing

NR-☐ Non Reusable Mask

- ☐ Passed the dolomite test
- ☐ Easy to store
- ☐ Does not cause skin irritation
- ☐ Nasal sponge for comfortable use
- ☐ Comfortable knitted headband
- ☐ Vertical foldable structure
- Adjustable ☐ headband
- ☐ EN 149:2001+A1:2009 FFP2 NR D
